### EXECUTIVE SUMMARY

Detail-oriented and innovative Frontend Developer with a strong foundation in web development technologies and project management. Proficient in React.js, skilled at creating engaging user experiences through optimized coding practices and user-centered design principles. Proven ability to develop projects, including typing applications and browser extensions, that effectively address user needs. Passionate about leveraging modern technologies to enhance user engagement and operational efficiency.

### WORK EXPERIENCE

#### Associate Software Engineer

Maadhyamik Technologies, Karupur, Salem

2024 - Present

- Collaborated in the development of a Tamil Typing Tutor application, successfully implementing a Phonemic Keyboard Layout to enhance typing efficiency based on phonetic sounds.
- Streamlined user interface to improve the typing process, resulting in increased satisfaction for both novice and advanced users.
- Gained hands-on experience in modern web development practices and honed project management skills through collaborative work environments.

### CERTIFICATIONS

- Udemy : React - The Complete Guide 2024 (incl. Next.js, Redux)
- Infosyspringboard : AWS - Amazon EC2, HTML - Advanced, MongoDB, React JS, Rapid Redis

### WORKED PROJECTS

#### Tamil Typing Tutor

- Developed a typing tutor using a Phonemic Keyboard Layout for efficient phonetic typing.
- Enhanced user experience for both beginners and advanced users.
- Gained proficiency in web development technologies and project management.

#### Web Keyboard Extension

- Created a keyboard extension featuring a Phonemic Keyboard Layout for efficient phonetic typing.

#### Content Management System

- Developed a system for uploading and managing content.
